# OUR STORY

---

True North has invested over 25 years into the research, design, testing and manufacturing of durable and innovative gear and clothing for wildland and structure firefighters. In 1992, founder Alyx Fier began the company in his garage with a home sewing machine after he saw an unmet need for dependable fire gear intentionally designed around customer needs. Since then, True North has grown from a one-person operation to an ISO 9001 registered multi-brand company whose products are distributed worldwide. Though we've grown, our company headquarters are still in Seattle, WA, just up the street from the garage where it all started.

Over the years, we have stayed true to our heritage of seeking out and harnessing user feedback to create new design solutions or upgrade existing ones. We provide the pinnacle in performance through a design philosophy that embraces durability, comfort and protection as inclusive elements. Designing and delivering dependable products is essential to the vitality of our organization and our overarching mission to support and protect a customer base that operates in life-risking environments every day.

We welcome all feedback on our products and service, and encourage you to reach out and share your thoughts with us.

## OUR PROMISE

Committed and caring customer service and a lifetime material warranty on all products further distinguishes True North's customer-driven focus. All products are covered against defects in the materials and workmanship, and complimentary repair or replacement of any gear with a manufacturing defect will be provided for the practical lifetime of the product. Damage due to wear and tear may be repaired at a reasonable charge.
